

The Emergency Food Assistance Program (TEFAP) : Impact of the Dairy Product Donation Program Final Rule

Food Distribution Division
Food and Nutrition Service

October 22, 2014

United States Department of Agriculture
Food and Nutrition Service

Slide 1

Overview of the Dairy Product Donation Program (DPDP)

- Authorized by the 2014 Farm Bill through December 31, 2018
- Designed to support dairy producer margins under certain market conditions
- Dairy product purchases, if made, will be donated to nonprofit organizations that provide nutrition assistance to low-income populations, most likely via TEFAP

Overview of the Dairy Product Donation Program (DPDP) Cont'd

- Final Rule implementing DPDP published on August 29, 2014
- The distribution of products purchased through DPDP will be operated for the Secretary under the direction of the Food and Nutrition Service (FNS)
- DPDP purchases are expected to be made in package sizes suitable for immediate household use

Input Requested

- FNS intends to prioritize nutritious products – consistent with the Dietary Guidelines – such as 1% UHT milk and reduced fat cheese.
- The 2014 Farm Bill requires USDA to seek input to determine the types/quantities of products to purchase through DPDP, if market conditions permit.
- If market conditions permit, what types of TEFAP products would you and your participating agencies like to see through the DPDP?

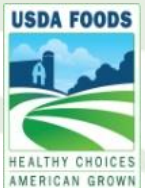

Input on Types of Products or Follow-up Questions?
